EDUCATION

- Multiplatform Application Development (DAM)**
IES Ágora | Sep 2025 - Present
- Specialization in Artificial Intelligence and Big Data**
IES Ágora | Sep 2024 - Jun 2025
- Web Application Development (DAW)**
IES Ágora | Sep 2022 - Jun 2024

TECHNICAL SKILLS

- AI & Data Science:** Python, Machine Learning, LangChain, RAGs, OpenAI API, Scikit-learn, Pandas, NumPy, Power BI.
- Full Stack & Mobile Development:** Angular, TypeScript, Android, Java, SQL, HTML5/CSS3.
- Cloud & DevOps:** AWS, Docker, GitHub, Linux.
- QA & Testing:** JMeter, LoadRunner, Postman, SoapUI, ALM, Grafana, InfluxDB.

LANGUAGES

Spanish - Native
English - Professional Fluency

PROFILE

Artificial Intelligence and Big Data Specialist with a background in QA. I combine testing discipline with knowledge of predictive models and data management to develop scalable and error-free AI solutions.

EXPERIENCE

Camp Hilltop

Camp Counselor in the US

- Organized recreational activities and supervised campers.

FEATURED PROJECT

Full Stack Agricultural Marketplace (PHP/MySQL): E-commerce platform deployed to production with responsive design (Bootstrap) and interactive maps. Native backend development including role management and a sales statistics dashboard via complex SQL queries.

ADDITIONAL TRAINING

- Generative AI & LLM Apps Bootcamp (2025)** - AI Agents, LangChain, OpenAI API, RAGs, LLMops, Vector DBs.
- Machine Learning with Python** - Scikit-learn, Predictive Models, Supervised Learning, and Data Analysis.
- Advanced SQL** - Complex queries and relational database management.
- Power BI Desktop** - Data modeling and corporate visualization.
